Reasons For Allowance

Claims 1 – 40 are allowable.

1. The following is an examiner's statement of reasons for allowance: in combination with other limitations of the claims the prior arts made of record fail to suggest an encoding method of record medium, for modulating a sequence of original data of m digits as a sequence of digital of n digits, the encoding procedures of the method involving accessing the original data of the m digits after setting an initial type, obtaining a corresponding set value (i) after the original data of the m digits is transformed, and searching a corresponding digital set $(S(i))$ in a digital table, then obtaining a unique digital vector $(V(j))$ in the digital set via a sieve procedure, picking the digital data of the n digits of the digital vector, finally outputting the encoding results, the digital data of the n digits be output to the record medium to store after repeating the encoding procedures wherein the method processed the sieve of the digital vector. In combination with other limitations of the claims the prior arts made of record fail to suggest a decoding method of recording medium, for modulating a sequence of digital data of n digits as sequence of original data of m digits, the decoding procedures of the method involving searching a corresponding digital vector of the digital data of the n digits in a digital table, obtaining a unique digital vector after comparing procedure determining a corresponding digital set $(S(i))$ of the vector, outputting the corresponding set value (i) as the decoding result, for obtaining sequence of original data of m digits after repeating decoding procedures wherein the method when there being multiple same digital vector accessing comprising the steps of accessing a type of the digital
